

# REFINITIV AND MAYSTREET

## Leading-edge technology and global market data

London Stock Exchange Group (LSEG) has acquired MayStreet, a leading market data solutions provider. Clients can now access a best-of-breed solution leveraging LSEG's global presence and vast market coverage.

### Address your needs with Refinitiv and MayStreet

- With [MayStreet joining LSEG](#), we have enhanced our value proposition to provide customers with high-quality data across the latency spectrum
- We support performance, cost savings and content automation within quant hedge funds, banks, asset managers and other types of customers
- Data processing is costly and requires time and effort to maintain quality – benefit from reduced total cost of ownership (TCO) and great quality with our solutions
- Every tick matters – we support your automation, analytics and artificial intelligence (AI) efforts
- Leverage the cloud with our cloud-native solutions
- Reduce risk with our flexible delivery and ability to migrate data in blocks

### Expanded capabilities across the latency spectrum

- We have expanded our capabilities across the latency spectrum
- Access your market data in three to four microseconds with Bellport Enterprise (MayStreet)
- Discover our premium, real-time PCAP (packet capture) content with Market Data Lake (MayStreet) -- available raw or normalised in CSV or Parquet
- Connect direct feeds into your business-critical electronic trading applications

### Refinitiv solutions powered by MayStreet technology

#### Bellport Enterprise

- Low-latency feed handler libraries and associated tools for processing exchange market data
- Global coverage with support for capture, normalisation and book-building

#### Refinitiv Real-Time – Direct

- Managed real-time data service with Refinitiv API, data models and managed hardware
- Completely redesigned using MayStreet technology stack

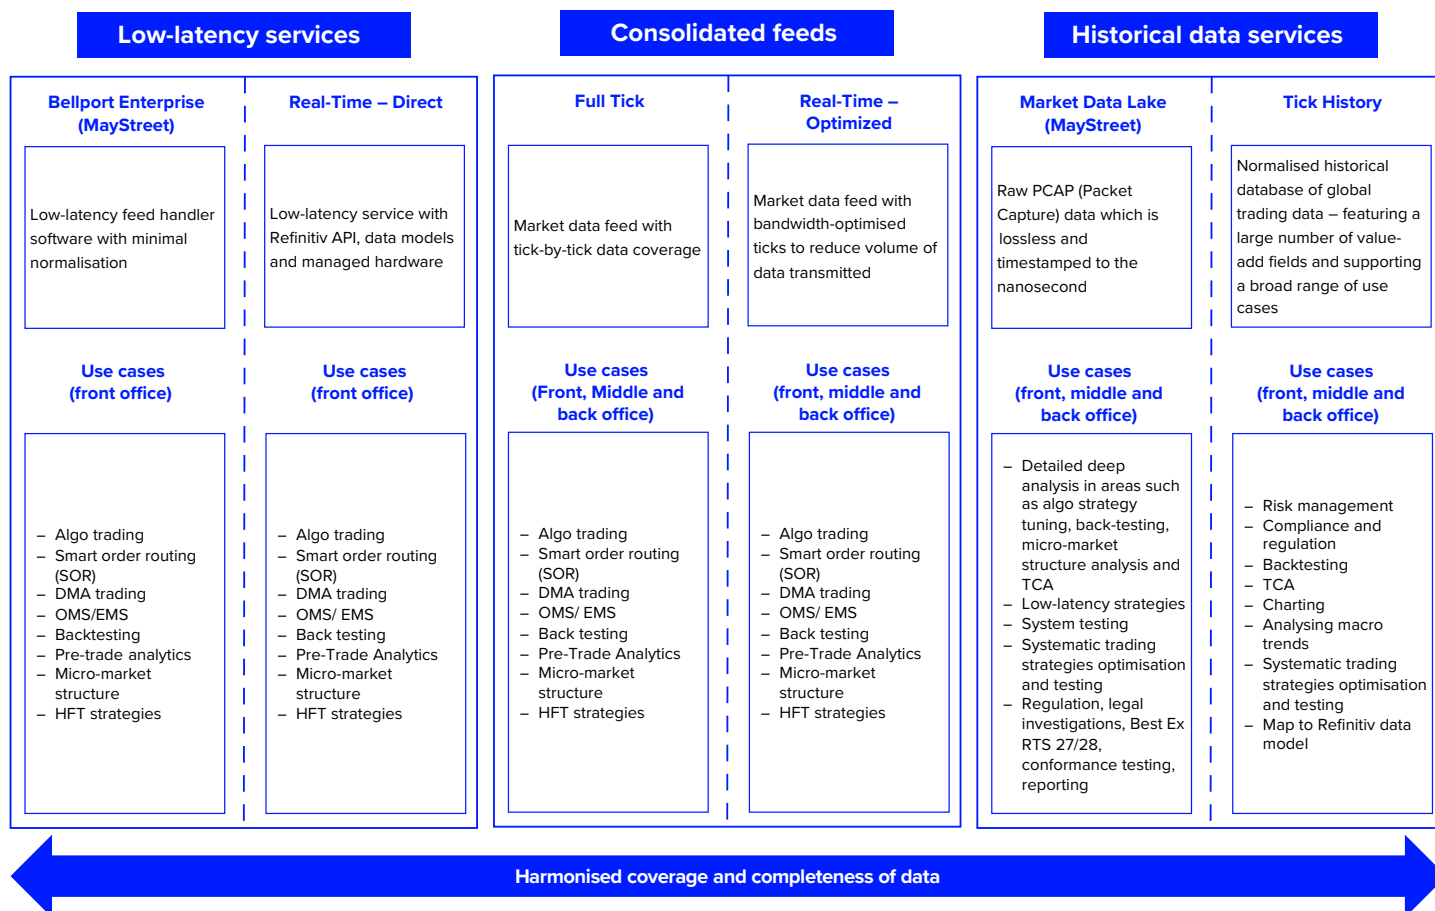

#### Market Data Lake (MayStreet)

- Raw exchange data captured from primary and secondary data centres globally
- Lossless capture – arbitrating across multiple sites and channels
- GPS, nanosecond time stamps to support market reconstruction

#### Analytics Workbench (MayStreet)

- Zero-footprint cloud environment to analyze Market Data Lake (MayStreet), Refinitiv, and client data
- Pre-built tools to support application and dashboard development
- Supports data extraction via ad-hoc queries and batch jobs to any location

## Enterprise data solutions latency spectrum

## Complementary data solutions

### Pricing data and Reference services

- We provide independent, global evaluated pricing services and originate, consolidate and distribute reference data to meet your trading and compliance needs

### Quantitative analytics

- Access a wide range of Refinitiv and third-party data, all fully integrated, normalised and ready to use 'out of the box' for quantitative analysis – together with the tools to integrate your own proprietary data

### Machine readable news

- The only programmatic news service powered by Reuters
  - common uses include event-based trading based on economic releases, exclusive M&A newsbreaks and quantitative investment using sentiment and buzz metrics
